Miller® Tool Lanyard

Bandit Lanyard Tool Holder

(Waist belt and wrench not included)

WristBandit Tool Holder

(Hammer not included)

Increase Worker Productivity and Safety with Miller® Bandit™ Tool Lanyards

When performing jobs at heights, workers can sometimes lose their grip. Tools are often dropped, reducing on-the-job efficiencies and potentially causing serious injuries to workers below. With Miller Bandit Tool Lanyards, that doesn't have to be the case.

Bandit Lanyard™ Tool Holder Model #9077

The Miller Bandit Lanyard is a tool lanyard designed to be attached to the worker's waist belt while still allowing enough freedom of movement to perform the task at hand. Tools may be attached using the carabiner or by looping the cord around the tool and cinching tight.

- Loop for waist belt attachment
- Lightweight, aluminum mini-carabiner and cord adjuster for tool attachment

Also available without the carabiner. (Order Model #9077X)

WristBandit™ Tool Holder Model #9076

The Miller WristBandit Tool Holder conveniently attaches to the user's wrist with Velcro®. Tools are attached by cinching the lanyard cord tight around the tool.

- Constructed of soft nylon webbing for comfort
- Adjustable Velcro closure allows for a good fit around the user's wrist
- Nylon rope cord with adjuster for tool attachment

Velcro is a registered trademark of VELCRO USA inc.

Ideal for a wide range of industries and applications...

- Construction
- General Industry
- Telecommunications
- Roofing
- Ironwork
- Maintenance
