Miller DuraHoist Portable I-Beam Clamping Base
Model: DH-AP-9/

Description
I-Beam Clamping Base is designed to mount temporarily to structural I-Beams to support Miller Safety Systems Portable Fall-Arrest structures.

Materials
General Construction: Welded Steel
Weld Certification: AWS
Material: HR Mild Steel
Hardware: Zinc plated steel
Screws: 304 Stainless Steel
Thrust Bearing Material: High Density Polyethylene
Plating Specification: Type II, Type III Zinc, SC-2 ASTM B633-85 CS-500 leachant/sealant process
Finish: Cs-500 Zinc plated

Technical
Rated Capacity: When installed according to the mounting requirement section of this specification, the I-Beam Clamping Base meets or exceeds the rated capacity of all Portable Fall-Arrest System accessories.

Proof Load 190,000 in-lbs. (21.5 kN-m)
Weight 56 lbs. (25.4 kg)

Mounting Requirements
DH-AP-9/ Advanced Series Portable Fall-Arrest Anchor Post:
Moment Requirement: 190,000 in-lbs. (21.5 kN-m)
Vertical Load Requirement: 3100 lbs. (13.8 kN)

Application Restrictions
1. This product is designed for use with accessories manufactured or approved by Miller.
2. The Beam Clamping Base is for use on I-Beams with a flange width of between 6.0” – 10” only.
3. All accessories must be compatible with all other system components requirements and must be installed, used and maintained according to the manufacturer’s instruction.
4. Each installation must be approved to local standards by a qualified engineer.
